

TREES AND SHRUBS: Circle 4 different species of trees and shrubs (any combination) from the following lists.

NATIVE TREES Common Name/Botanical Name:

Red Maple	<u><i>Acer Rubrum</i></u>	Host Plant
Sugar Maple	<u><i>Acer Saccharum</i></u>	Host Plant
Yellow Buckeye/Horse Chestnut	<u><i>Aesculus flava</i></u>	Host Plant
Hazel Alder	<u><i>Alnus serrulata</i></u>	Host Plant
Downy Serviceberry	<u><i>Amelanchier arborea</i></u>	Host Plant
Pawpaw	<u><i>Asimina Triloba</i></u>	Host Plant
River Birch	<u><i>Betula Nigra</i></u>	Host Plant
American Hornbeam	<u><i>Carpinus Caroliniana</i></u>	Host Plant
Pignut Hickory	<u><i>Carya Glabra</i></u>	Host Plant
Shagbark Hickory	<u><i>Carya Ovata</i></u>	Host Plant
Common Hackberry	<u><i>Celtis occidentalis</i></u>	Host Plant
Eastern Redbud	<u><i>Cercis Canadensis</i></u>	Host Plant
Fringetree	<u><i>Chionanthus Virginicus</i></u>	Host Plant
Flowering Dogwood	<u><i>Cornus Florida</i></u>	Host Plant
Green Hawthorn	<u><i>Crataegus viridis</i></u>	Host Plant
American Beech	<u><i>Fagus Grandifolia</i></u>	Host Plant
Black Walnut	<u><i>Juglans Nigra</i></u>	Host Plant
Eastern Red Cedar	<u><i>Juniperus virginiana</i></u>	Host Plant
cucumber tree	<u><i>Magnolia acuminata</i></u>	Host Plant
Tulip Poplar	<i>Magnolia Liriodendran</i>	Host Plant
umbrella-tree	<u><i>Magnolia tripetala</i></u>	Host Plant
Mulberry	<i>Morus Urticales</i>	Host Plant

Eastern Hop Hornbeam	<u><i>Ostrya Virginiana</i></u>	Host Plant
Sourwood	<i>Oxydendrum arboretum</i>	Host Plant
American Sycamore	<i>Plantus occidentalis</i>	Host Plant
Chicksaw Plum	<u><i>Prunus Angustifolia</i></u>	Host Plant
Chokecherry	<u><i>Prunus virginiana</i></u>	Host Plant
White Oak	<u><i>Quercus Alba</i></u>	Host Plant
Swamp White Oak	<u><i>Quercus bicolor</i></u>	Host Plant
Southern Red Oak	<u><i>Quercus falcata</i></u>	Host Plant
Willow Oak	<u><i>Quercus Phellos</i></u>	Host Plant
American Basswood	<i>Tilus Americana</i>	Host Plant

TREES AND SHRUBS: Circle 4 different species of trees and shrubs (any combination) from the following lists.

NATIVE SHRUBS: Common Name/Botanical Name

Hazel Alder	<u><i>Alnus Serrulata</i></u>	
New Jersey Tea	<u><i>Ceanothus Americanus</i></u>	
Buttonbush	<u><i>Cephalanthus Occidentalis</i></u>	Host Plant
Eastern Leatherwood	<u><i>Dirca palustris</i></u>	
Wintergreen, Teaberry	<u><i>Gaultheria procumbens</i></u>	
Black Huckleberry	<i>Gaylussacia baccata</i>	
American Witch Hazel	<u><i>Hamamelis Virginiana</i></u>	
Wild Hydrangea	<u><i>Hydrangea Arborescens</i></u>	
Shrubby St. John's Wort	<u><i>Hypericum Porlificum</i></u>	
Mountain Holly	<u><i>Ilex montana</i></u>	

Winterberry	<i>ilex verticilata</i>	
Mountain Laurel	<u><i>Kalmia latifolia</i></u>	
Spicebush	<u><i>Lindera Benzoin</i></u>	
Scentless Mock Orange	<u><i>Philadelphus inodorus</i></u>	Host Plant
Ninebark	<u><i>Physocarpus opulifolius</i></u>	
Flame Azalea	<u><i>Rhododendron calendulaceum</i></u>	
Pink Azalea	<u><i>Rhododendron periclymenoides</i></u>	
Rose Azalea	<u><i>Rhododendron prinophyllum</i></u>	
Swamp Rose	<u><i>Rosa palustris</i></u>	
Common Elderberry	<i>Sambucus Canadensis</i>	
Coralberry	<u><i>Symphoricarpos orbiculatus</i></u>	Host Plant
Mapleleaf Viburnum	<u><i>Viburnum acerifolium</i></u>	
Southern Arrowwood Viburnum	<u><i>viburnum Dentatum</i></u>	
Poosum-haw Virburnum	<u><i>Viburnum Nudum</i></u>	
Blackhaw Virburnum	<u><i>Viburnum prunifolium</i></u>	

NATIVE PERENNIAL FLOWERS: Circle at least a total of 6 different species of native perennial flowers with at least two from each season grouping from the following lists.

Early Season Bloom(April/May/June), Common Name/Botanical Name Need a minimum of 2:

Colombine	<u><i>Aquilegia Canadensis</i></u>	Host Plant
Jack in the Pulpit	<u><i>Arisaema Triphyllum</i></u>	
Blue Wild Indigo	<u><i>Baptisia Australis</i></u>	Host Plant
Surge	<u><i>Euphorbia Corollata</i></u>	
Bettleweed	<u><i>Galax urceolata</i></u>	

Woodland Geranium	<u><i>Geranium Maculatum</i></u>	Host Plant
Coral Bells	<i>Heuchera Americana</i>	
Dwarf Crested Iris	<u><i>Iris Cristata</i></u>	
Virginia Bluebells	<u><i>Mertensia Virginica</i></u>	
Golden Ragwort	<u><i>Packera Aurea</i></u>	Host Plant
Arrow Arum	<u><i>Peltandra virginica</i></u>	
Gray Beardtongue	<i>Penstemon carensens</i>	Host Plant
Foxglove	<i>Penstemon digitalis</i>	
Solomon's Seal	<u><i>Polygonatum biflorum</i></u>	
Foamflower White	<u><i>Tiarella Cordifolia</i></u>	
White Trillium	<u><i>Trillium grandiflorum</i></u>	
Trillium	<u><i>Trillium Sessile</i></u>	

Mid Season Bloom time June-August, Common Name/Botanical Name. Need a minimum of 2:

Yarrow	<u><i>Achillea Millefolium</i></u>	
Purple Hyssop	<i>Agastache Scrophularifolia</i>	
Butterfly Weed	<i>Asclepias tuberosa</i>	
Swamp Milkweed Common	<i>Asclepias incarnata</i>	Host Plant
Milkweed, Purple Lady Fern	<i>Asclepias syriaca</i>	Host Plant
Bellflower	<u><i>Campannula Divaricata</i></u>	Host Plant
Turtlehead	<u><i>Chelone Glabra</i></u>	
Lobed tickseed	<u><i>Coreopsis auriculata</i></u>	

Tickseed	<u>Coreopsis major</u>	Host Plant
Star tickseed	<u>Coreopsis pubescens</u>	
Whorled tickseed	<u>Coreopsis verticillata</u>	
Joe Pye-Weed	<i>Eupatorium Purpureum</i>	
Carolina Geranium Cranesbill	<i>Geranium Carolinaiam</i>	Host Plant
Oxeye Sunflower	<u>Heliopsis Helianthoides</u>	Host Plant
Scaly Blazing Star, purple	<u>Liatris Squarrosa</u>	
Turk's Cap Lily	<i>Lillium Superbum</i>	
Cardinal Flower	<u>Lobelia Cardinalis</u>	
Great Blue Lobelia	<i>Lobelia siphilitica</i>	
Yellow LooseStrife	<u>Lysimachia ciliata</u>	
Basil Beebalm	<u>Monarda Clinopodia</u>	
Wild Bergamot	<u>Monarda Fistulosa</u>	
Spotted Beebalm, Horsemint	<i>Monarda punctuate</i>	
Narrow-leaf Sundrops	<i>Oenothera fruticosa</i>	Host Plant
Easter Smooth Beardtongue	<u>Penstemon Laevigatus</u>	
Woodland Phlox	<u>Phlox divaricata</u>	
Mountain phlox	<u>Phlox latifolia</u>	
Mountain Mist	<u>Pycnantbemum tenuifolium</u>	Host Plant
Brown Eyed Susan	<i>Rudbeckia Asterales</i>	
Black Eyed Susan	<i>Rudbeckia Hirta</i>	
Lyre-lea Salvia	<u>Salvia Lyrata</u>	
Virginia Spiderwort	<u>Tradescantia Virginiana</u>	Host Plant
Blue Vervain	<u>Verbena Hastata</u>	Host Plant
Narrowleaf Verbena	<u>Verbena Simplex</u>	

Culver's Root

Veronicastrum Virginicum

Late bloom time, August-October, Common name/botanical name, Need a minimum of 2:

Yellow Hyssop

Agastache nepetoides

Wild Snakeroot

Ageratina altissima

Lanceleaf Anemone

Anemone Lancifolia

Tall Anemone

Anemone Virginiana

White Wood Aster

Eurybia divaricate

Host Plant

Purpledisk sunflower

Helianthus atrorubens

Ten-peteled sunflower

Helianthus decapetalus

Woodland sunflower

Helianthus divaricatus

Smooth sunflower

Helianthus laevigatus

Small woodland sunflower

Helianthus microcephalus

Biennial Guara

Oenothera guara

Host Plant

Paleleaf woodland sunflower

Helianthus strumosus

Obedient Plant, White, Pink, Purple

Physostegia Virginiana

Wild Stonecrop

Sedum Ternatum

Goldenrod

Solidago Rugosa

Host Plant

Heart Leaved Aster

Symphoytricum Cordifolium

Smooth Blue Aster

Symphoytricum concinnum

Purplestem Aster

Symphoytricum puniceum

White Vervain

Verbena Urticifolia

New York Ironweed

Vernonia noveboracensis

If you are interested in native vines, here are some to consider but they are not required for your garden:

Pipevine	<u><i>Aristolochia macrophylla</i></u>	Host
Virginia Snakeroot	<u><i>Aristolochia serpentaria</i></u>	Host
Crossvine	<u><i>Bignonia Capreolata</i></u>	Host
Trumpet Creeper	<u><i>Campsis radicans</i></u>	Host
Virgin's Bower	<u><i>Clematis Virginiana</i></u>	Host
Honeyvine Virginia	<u><i>Cynanchum laeve</i></u>	Host
Creeper Purple	<u><i>Parthenocissus Quinquefolia</i></u>	Host
Passionflower	<u><i>Passiflora incarnata</i></u>	Host
Bristly Greenbriar	<u><i>Smilax hispida</i></u>	Host

NATIVE FERNS (not required but something to consider)

Common name/Botanical Name/Host

Southern Ladyfern	<u><i>Arthyrium asplenoides</i></u>	Host
Cinnamon Fern	<u><i>Osmundastrum cinnamomeum</i></u>	Host
Royal Fern	<u><i>Osmunda spectabilis</i></u>	Host

Weeds: Please don't PLANT weeds but encourage you to relax about their presence in your landscape. "Weed" plants are some of the most beneficial plants pollinators have access to. (examples: dandelion, thistle, white clover) While it is important to be a responsible steward and eradicate noxious or aggressive weeds, please think twice about removing/ treating those flowering weeds that are generally well behaved. If you think it is pretty, chances are a pollinator will too.
